**AGENDA**

- I. Call to Order
- II. Review of Investment Policy and Investment Strategy
- III. Oral Requests
- IV. Adjourn

# MEMORANDUM

City of Campbell

Finance Department

To: Finance Sub-Committee

Date: July 26, 2021

From: Will Fuentes, Finance Director  
Norite Vong, Finance Manager

Subject: Annual Investment Policy and Investment Strategy Update

---

A Finance Sub-Committee Meeting has been scheduled for Monday, July 26<sup>th</sup> at 11:00 am via a Zoom virtual meeting to discuss the annual review of the **Investment Policy** update.

California Government Code recommends that the City Council review the City's Investment Policy annually. The City's Investment Policy requires the Finance Sub-Committee to review any proposed changes and make recommendation to the Council accordingly. It also requires the Sub-Committee to review the **Investment Strategy** annually as well and share a summary of that strategy with Council.

The Investment Policy is updated annually to conform to California Government Code Section 53600 et. seq. Any statutory revisions made during the previous calendar year that impact the City policy are incorporated as necessary. In addition to statutory revisions, staff is presenting several minor revisions below that were recommended by an external investment advisor after an informal review. All changes are shown in an attached redline file:

- Pages 6 and 15 – **NRSRO** is clarified to mean **Nationally Recognized Statistical Ratings Organization** on page 6 and also defined on page 15. For reference, a NRSRO is a credit rating agency that provides an assessment of the creditworthiness of a firm or financial instrument(s) that is registered and approved by the Securities and Exchange Commission (SEC). Not all credit rating organizations are NRSROs. Some examples of current NRSROs include Moody's Investors Service Inc., S&P Global Ratings, Fitch Ratings Inc., and Morningstar Credit Ratings, LLC.
- Pages 6, 7, 8, and 12 – To align with best practice, the maximum allowable investment in any one issuer for **Commercial Paper**, **Bankers Acceptances**, **Medium Term Notes**, and **Municipal and State Obligations** has been reduced from 10% to **5%**. This will ensure a more diversified portfolio and reduce overall risk by not overly concentrating the City's investment assets. Both the applicable sections and summary table reflect this revision. This change is not expected to significantly impact the City's investment returns or options.
- Page 7 – To align with State guidelines on allowable investments, the criteria for selecting **Medium Term Notes** has been simplified and lowered to reflect a

rating category of “A” or its equivalent or better by at least one NRSRO. These are rating categories for investments considered **high grade**. Currently, the criteria for selecting Medium Term Notes is a rating of at least AA by Standard & Poor’s, Aa2 b Moody’s, or AA by Fitch. These are rating categories for investments considered **very high grade**. Rating categories along with which rating agencies are deemed NRSROs can change over time. Thus, staff and the external investment advisor felt it prudent to have a broader criteria for selecting Medium Term Notes that can automatically adjust to these changes over time. Additionally, to allow for greater flexibility, while still being safe and adhering to State guidelines on allowable investments, staff and the external investment advisor also felt it prudent to slightly lower the ratings criteria for Medium Term Notes from very high grade to high grade, as detailed above.

- Page 9 – Although implied in the past, the external investment advisor recommended including explicit language on **Prohibited Investments**. In addition, to align with Senate Bill (SB) 998, passed on January 1, 2021, language was added to allow for investment in **Zero or Negative Interest Securities** backed by the US government. US government backed securities are considered the safest and most liquid investments in the world. This adjustment to code allows Local Agencies to invest in negative yield investments should US government backed securities revert to negative rates due to market forces or by a change in policy by the Federal Open Market Committee (FOMC). While negative yields in the US are unlikely, SB 998 made investment in them allowable by California Local Agencies. However, all other Zero or Negative Interest Securities not backed by the US government are **prohibited**.
- Page 10 – Language for **Monthly Transactions Reports** has been modified to reference the applicable Government Code Section 53607. As required by GC Section 53607, staff will begin to submit to Council monthly investment transaction reports within 45 days of the prior month end that show a listing of investments purchased, sold, called, or that have reached maturity, along with any LAIF transfers. This will be in addition to the Quarterly Investment Report, which shows a number of other items listed under Section VII.A of the City’s Investment Policy and has been historically prepared by staff and submitted to Council within 30 days from the end of the prior quarter.
- Pages 10 and 15 – **Delivery Versus Payment (DVP)** is a securities industry settlement method that guarantees the transfer of securities only happens after payment has been made. DVP stipulates that the buyer’s cash payment for securities must be made prior to or at the same time as the delivery of the security. As such, the Investment Policy has been clarified on page 10 to reflect the fact that the City, as do most all public agencies, utilizes the DVP method as a matter of best practice when purchasing securities. In addition, DVP is defined on page 15.
- Pages 14 through 16 – The **Glossary** has been re-ordered alphabetically. In addition, definitions for Delivery Versus Payment (DVP) and Nationally

Recognized Statistical Ratings Organizations (NRSROs) have been added as previously stated.

*Please note that a clean Investment Policy with all recommended revisions incorporated is also attached.*

The attached Investment Strategy provides a review of the City's current strategy with respect to the investment portfolio and staff recommendations for the upcoming year. The strategy is similar to the prior year with substantive changes noted in the attachment. Additionally, an economic review of the past year and summary of current economic conditions is provided.

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 20210

### **I. PURPOSE**

It is the policy of the City of Campbell to invest public funds in a prudent manner which conforms to all statutes governing the investment of public funds while providing security and meeting the daily cash flow needs of the City.

The purpose of this document is to identify the policies guiding prudent investment of the City's temporarily idle funds and to establish guidelines and objectives for suitable investments including delegation of authority, prudence, monitoring and reporting, policy review, diversification, eligible securities, safekeeping, collateralization, selection of financial institutions and broker/dealers, glossary of terms, and forms utilized.

### **II. SCOPE**

A. This investment policy shall apply to all financial assets, investment activities, and debt issues of the City of Campbell including the following fund types:

1. General Fund
2. Special Revenue Funds
3. Debt Service Funds
4. Capital Projects Funds
5. Internal Service Funds
6. Trust and Agency Funds

B. The policy does not cover funds held by the Public Employees Retirement System nor funds of the Deferred Compensation program.

### **III. OBJECTIVES**

A. It is the objective of this policy to provide a system which will monitor and forecast revenues and expenditures so that the City can invest temporarily idle funds to the fullest extent possible. The temporarily idle funds shall be invested in accordance with provisions of California Government Code Section 53600 et. seq.

B. The City adheres to conservative investment philosophies including investment of all idle cash, preservation of principal at the risk of yield, maintenance of adequate liquidity to meet anticipated cash flow needs and diversification to avoid the risks inherent in over investing in any one asset class.

C. This policy specifically prohibits trading securities for the sole purpose of speculating on the future direction of interest rates. It further prohibits reverse repurchase agreements, use of derivative products, and/or leveraging of the portfolio.

D. The City shall ensure the safety of invested funds by limiting credit and interest rate risks. The three primary objectives of the City's Investment Policy in order of priority are:

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 202~~10~~19

1. **Safety:** Safety of principal is the foremost objective of the City of Campbell. Safety and the minimizing of risk associated with investing refer to attempts to reduce the potential for loss of principal, interest or a combination of the two. The City ensures safety of its invested idle funds and limits credit and interest rate risks by following these guidelines (all of which are detailed within the body of the Investment Policy):
  - a. Investing only in those instruments that are generally accepted as safe investment vehicles for local government as authorized by this Policy,
  - b. Carefully reviewing the qualifications and financial strength of financial institutions and broker/dealers prior to conducting business with them,
  - c. Diversifying the investment portfolio as prescribed within this Policy,
  - d. Structuring the portfolio such that securities mature to meet the City's cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to their maturation,
  - e. Limiting the final maturity of purchased securities to five years; limiting the weighted average maturity of the portfolio to three years, and
  - f. Ensuring the physical security or safekeeping of the City's investments.
2. **Liquidity:** Liquidity is the second most important objective of the City's Policy. Liquidity refers to the ability to convert an investment to cash promptly without loss of principal and minimal loss of interest. For example, this is accomplished by investing either in the Local Agency Investment Fund (LAIF) with same day availability, or investing in securities with active secondary or resale markets.
3. **Yield:** Yield on the City's portfolio is last in rank among investment objectives. Investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

#### **IV. STRUCTURE AND RESPONSIBILITY**

##### **A. DELEGATION OF AUTHORITY:**

1. The City Council assumes direction over the City's investments, and assigns management responsibility for the investment program to the Finance Director, who shall serve as Chief Fiscal Officer, and have legal custody of funds. The Finance Director may provide for delegation of his/her responsibilities to other persons under his/her control responsible for investment transactions, including designation of certain portions of the

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 202~~1~~0

investment portfolio related to debt financing to be administered by professional portfolio administrators, i.e. California Arbitrage Management Program (C.A.M.P.) or such other designated administrators approved by the Finance Sub-Committee.

### **B. POLICY REVIEW:**

1. This Investment Policy shall be reviewed and approved annually as recommended by California Government Code Section 53600 et. seq.

### **C. RESPONSIBILITIES:**

1. **Responsibilities of the City Council:** The City Council consists of a Mayor and four Council members and is the policy setting board for the City of Campbell. The City Council has considered and adopted a written Investment Policy for the City of Campbell. Pursuant to the City's Financial Policies, the City Council shall on an annual basis, approve necessary changes to the Investment Policy as recommended by the Finance Sub-Committee. On a quarterly basis, the City Council shall receive, review and accept the Quarterly Investment Report submitted by the Finance Department.
2. **Responsibilities of the Finance Sub-Committee:** The Finance Sub-Committee consists of two Council members, the City Manager, the Finance Director, and the Finance Manager. On an annual basis, this Sub-Committee shall review necessary revisions to the established Investment Policy of the City of Campbell and make a recommendation to the City Council accordingly. No less than once per fiscal year, the City's investment strategy will be reviewed by the Finance Sub-Committee. A summary of the investment strategy will be shared with the City Council at that time. Should market activity encourage revisions in the City's strategy, the Finance Sub-Committee shall be advised accordingly.
3. **Responsibilities of the City Manager:** The City Manager is responsible for directing and supervising the Finance Director. He/she has the responsibility of keeping the City Council fully advised as to the financial condition of the City.
  - a. **Wire Transfer Authority:** The City Manager has unlimited wire transfer authority for a single transaction. Such a transaction requires joint review, approval and verification in advance by the City Manager and Finance Director. The transaction shall be highlighted in the Quarterly Investment Report to Council.
4. **Responsibilities of the Finance Director:** The Finance Director is appointed by the City Manager and serves as Chief Fiscal Officer. He/she is subject to the direction and supervision of the City Manager. The Finance Director is charged with the responsibility for the conduct of all Finance Department functions including the custody and investment of City funds, and investment of those funds in accordance with principles of sound treasury management and in accordance with applicable laws and policies. Refer to "Delegation of Authority" for additional information pertaining to delegation of investment responsibilities.

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 20210

- a. **Wire Transfer Authority:** The Finance Director has wire transfer authority not to exceed \$5,000,000 for a single transaction. Such a transaction shall be reviewed, approved and verified in advance by the City Manager. The transaction shall be highlighted in the Quarterly Investment Report to Council.
5. **Responsibilities of the Finance Manager:** The Finance Manager is appointed by the Finance Director and serves as the Investment Manager for the City pursuant to specific delegation authority provided by this Investment Policy. He/she is subject to the direction and supervision of the Finance Director and is charged with the responsibility and conduct of the day-to-day accounting and cash management functions of the City. This includes the custody and investment of City funds, and investment of those funds in accordance with principles of sound treasury management and in accordance with applicable laws and policies. Refer to "Delegation of Authority" for additional information pertaining to delegation of investment responsibilities.

Implementation and maintenance of the Investment Policy are the responsibility of this individual. On an annual basis, the Finance Manager shall present to the Finance Sub-Committee, recommended changes to the City's Investment Policy. On a quarterly basis, the Finance Manager shall present to the City Council, via the City Manager, a Quarterly Investment Report. Refer to "Monitoring and Reporting" for additional information.

- a. **Wire Transfer Authority:** The Finance Manager has wire transfer authority not to exceed \$3,000,000 for a single investment transaction. Such a transaction shall be reviewed, approved and verified in advance by the Finance Director, and shall be reported in the Quarterly Investment Report to Council.
6. **Responsibilities of the Accountant and Sr. Accountant:** The Accountant is appointed by the Finance Director and is subject to the direction and supervision of the Finance Manager. The Accountant carries out the specific instructions provided by the Finance Manager regarding the purchase and sale of securities in accordance with principles of sound treasury management and in accordance with applicable laws and policies. Accounting for the various investment transactions is the responsibility of the Accountant.
    - a. **Wire Transfer Authority:** The Accountant and Senior Accountant have wire transfer authority not to exceed \$2,100,000 for a single investment transaction. The standard operating procedure is that all cash and investment wire transfers made by the Accountant and Senior Accountant are reviewed, approved and verified in advance by the Finance Manager, and are reported in the Quarterly Investment Report to Council.

### **D. Prudence:**

1. It is the understanding of the individuals holding positions with investment responsibilities that the "prudent investor" rule applies. This means that investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital and income to be derived.

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 20210

2. The City's overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The City recognizes that no investment is totally riskless and that the investment activities of the City are a matter of public record. Accordingly, while the intent of the City is to hold purchased securities to maturity, the City recognizes that occasional measured losses may be advisable in a diversified portfolio and shall be considered within the context of the overall portfolio's return, provided that (a) adequate diversification has been implemented, (b) the sale of a security is in the best long-term interest of the City and (c) the City Manager approves in writing.

### **E. Ethics and Conflicts of Interest:**

Elected officials and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the City's investment program or could impair or create the appearance of an impairment of their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Manager any business interests they have in financial institutions that conduct business with the City, and they shall subordinate their personal investment transactions to those of the City. In addition, the City Manager, the Finance Director and others with delegated investment authority shall file a Statement of Economic Interests each year pursuant to California Government Code Section 87203 and regulations of the Fair Political Practices Commission.

### **F. Conflict with State Statutes or Regulations**

1. Any conflict between the City of Campbell Investment Policy and Government Code Section 53600 et seq, shall be interpreted in favor of the Government Code.

## **V. AUTHORIZED SECURITIES AND TRANSACTIONS**

All investments and deposits of the City shall be made in accordance with California Government Code Sections 16429.1, 53600-53609 and 53630-53686, except that pursuant to California Government Code Section 5903(e), proceeds of bonds and any moneys set aside or pledged to secure payment of the bonds may be invested in securities or obligations described in the ordinance, resolution, indenture, agreement, or other instrument providing for the issuance of the bonds. Any revisions or extensions of these code sections will be assumed to be part of this Policy immediately upon being enacted. However, in the event that amendments to these sections conflict with this Policy and past City investment practices, the City may delay adherence to the new requirements when it is deemed in the best interest of the City to do so. Percentage holdings limits listed in this section apply at the time the security is purchased.

The City has further restricted the eligible types of securities and transactions to the following:

1. United States Treasury bills, notes, bonds, or strips with a final maturity not exceeding five years from the date of purchase.
2. Federal Agency debentures and mortgage-backed securities with a final maturity not exceeding five years from the date of purchase issued by the Government National

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 202~~1~~0

Mortgage Association (GNMA). The aggregate investment in Federal Agency obligations shall not exceed 75% of the City's total portfolio.

3. Federal Instrumentality (government sponsored enterprise) debentures, discount notes, callable and step-up securities, with a final maturity not exceeding five years from the date of purchase, issued by the following only: Federal Home Loan Banks (FHLB), Federal National Mortgage Association (FNMA), Federal Farm Credit Banks (FFCB) and Federal Home Loan Mortgage Corporation (FHLMC). The aggregate investment in Federal Instrumentality obligations shall not exceed 75% of the City's total portfolio.
4. Repurchase Agreements with a final termination date not exceeding one year collateralized by U.S. Treasury obligations, Federal Agency securities, or Federal Instrumentality securities listed in items 1, 2 and 3 above with the maturity of the collateral not exceeding five years. For the purpose of this section, the term collateral shall mean purchased securities under the terms of the City's approved Master Repurchase Agreement. The purchased securities shall have a minimum market value including accrued interest of 102% of the dollar value of the transaction. Collateral shall be held in the City's custodian bank, as safekeeping agent, and the market value of the collateral securities shall be marked-to-the-market daily. The aggregate investment in repurchase agreements shall not exceed 10% of the City's total portfolio.

Repurchase Agreements shall be entered into only with broker/dealers that have executed a City approved Master Repurchase Agreement with the City. Repurchase counterparties shall be recognized as Primary Dealers with the Federal Reserve Bank of New York, or shall have a primary dealer within their holding company structure. Broker/dealers approved as Repurchase Agreement counterparties shall have a short-term credit rating of at least A-1 or the equivalent and a long-term credit rating of at least A or the equivalent. The Finance Director shall maintain a copy of the City's approved Master Repurchase Agreement along with a list of the broker/dealers that have executed a Master Repurchase Agreement with the City.

5. Prime Commercial Paper with a maturity not exceeding 270 days from the date of purchase with the highest ranking or of the highest letter and number rating as provided for by a Nationally Recognized Statistical Ratings Organization (NRSRO). The entity that issues the commercial paper shall meet all of the following conditions in either sub-paragraph a. or sub-paragraph b. below:
  - a. The entity shall (1) be organized and operating in the United States as a general corporation, (2) have total assets in excess of five hundred million dollars (\$500,000,000) and (3) have debt other than commercial paper, if any, that is rated "A" or higher by a NRSRO.
  - b. The entity shall (1) be organized within the United States as a special purpose corporation, trust, or limited liability company, (2) have program wide credit enhancements, including, but not limited to, over collateralization, letters of credit or surety bond and (3) have commercial paper that is rated "A-1" or higher, or the equivalent, by a NRSRO.

Purchases of eligible commercial paper may not represent more than 10% of the outstanding commercial paper of any single corporate issuer. No more than ~~10~~5% of the City's total portfolio may be invested in the commercial paper of any one issuer, and the

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 202~~10~~

aggregate investment in commercial paper shall not exceed 25% of the City's total portfolio.

6. Eligible Bankers Acceptances rated at least A-1 by Standard & Poor's, P-1 by Moody's, or F1 by Fitch at the time of purchase by each service that rates the commercial paper, with a maturity not exceeding 180 days from the date of purchase, issued by a state or national bank that has combined capital and surplus of at least \$250 million, whose deposits are insured by the FDIC, and whose senior long-term debt is rated at least A by Standard & Poor's, A2 by Moody's or A by Fitch at the time of purchase. No more than ~~40~~5% of the City's total portfolio may be invested in banker's acceptances of any one issuer, and the aggregate investment in banker's acceptances shall not exceed 30% of the City's total portfolio.
7. Medium Term Notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States, with a final maturity not exceeding five years from the date of purchase, ~~and are rated in a rating category of "A" or its equivalent or better by at least one NRSRO. No more than 5% of the City's total portfolio may be invested in medium term notes of any one issuer and the~~ ~~and rated at least AA by Standard & Poor's, Aa2 by Moody's or AA by Fitch. The~~ aggregate investment in medium term notes shall not exceed 30% of the City's total portfolio.
8. Non-negotiable Time Certificates of Deposit and savings deposits with a maturity not exceeding five years, in state or nationally chartered banks or savings and loans with a California branch office that are insured by the FDIC. Time Certificates of Deposit exceeding the FDIC insured amount must be secured pursuant to California Government Code Section 53652. No more than \$1 million may be invested in non-negotiable time certificates of deposit of any one issuer and the aggregate amount invested in non-negotiable time certificates of deposit shall not exceed 25% of the City's total portfolio.
9. Certificates of Deposit at commercial bank, savings bank, or savings and loan association that uses a private sector entity (Certificate of Deposit Account Registry Service) that assists in the placement of certificates of deposit, provided that the purchase of certificates of deposit do not, in total, exceed 30% of the City's funds that may be invested for this purpose. The City shall choose a nationally or state chartered commercial bank in California as the "selected" depository institution to invest the funds. The selected depository institution may submit the funds to a CDARS for the benefit of the City's account. The full amount of the principal and interest that may be accrued during the maximum term of each certificate shall be insured by the FDIC.
10. State of California's Local Agency Investment Fund (LAIF), pursuant to California Government Code Section 16429.1.
11. Mutual Funds registered under the Investment Company Act of 1940 that (1) are "no-load" (meaning no commission or fee shall be charged on purchases or sales of shares); (2) invest only in the securities and obligations authorized in this policy and (3) have a rating of ~~AAA~~ by Standard and Poor's, Aaa by Moody's or AAA/V1+ by Fitch. No more than 10% of the City's total portfolio may be invested in mutual funds of any one issuer, and the aggregate investment in mutual funds shall not exceed 15% of the City's total portfolio.

# City of Campbell, California

## Investment Policy

Date: August ~~18~~17, 202~~10~~19

12. Money Market Mutual Funds registered under the Investment Company Act of 1940 that (1) are “no-load” (meaning no commission or fee shall be charged on purchases or sales of shares); (2) have a constant daily net asset value per share of \$1.00; (3) invest only in the securities and obligations authorized in this policy and (4) have a rating of at least two of the following: AAA by Standard and Poor’s, Aaa by Moody’s or AAA/V1+ by Fitch. No more than 10% of the City’s total portfolio may be invested in money market funds of any one issuer, and the aggregate investment in money market funds shall not exceed 15% of the total portfolio.
13. Municipal and State Obligations with a minimum long-term rating of A/A-1 or higher by Standard and Poor’s and not exceeding 10% of the portfolio:
  - (a) Bonds Issued by the Local Agency (City of Campbell) including bonds payable solely out of the revenue from a revenue-producing property owned, controlled, or operated by the local agency or by a department, board, agency, or authority of the local agency.)
  - (b) State Obligations including registered treasury notes or bonds of this State and any of the other 49 states in addition to California, including bonds payable solely out of the revenue from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of the any of the other 49 United States, in addition to California.
  - (c) California Local Agency obligations including bonds, notes, warrants, or other evidence of indebtedness of any local agency within this state, including bonds payable solely out of the revenue from a revenue-producing property owned, controlled, or operated by the local agency or by a department, board, agency, or authority of the any of the local agency.
  - (d) No more than 5% of the portfolio may be invested in any single issuer.
14. Asset-Backed, Mortgage-Backed, Mortgage Pass-Through Securities, and Collateralized Mortgage Obligations from Issuers Not Defined in Sections 1, 2, and 4 of the Authorized Investments Section of This Policy, provided that:
  - (a) The securities are rated in a rating category of “AA” or its equivalent or better by a NRSRO.
  - (b) No more than 20% of the total portfolio may be invested in these securities.
  - (c) No more than 5% of the portfolio may be invested in any single Asset-Backed or Commercial Mortgage security issuer.
  - (d) The maximum legal final maturity does not exceed five (5) years.
15. Supranationals, provided that:
  - (a) Issues are US dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank.
  - (b) The securities are rated in a rating category of “AA” or its equivalent or better by a NRSRO.
  - (c) No more than 30% of the total portfolio may be invested in these securities.
  - (d) No more than 10% of the portfolio may be invested in any single issuer.

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 20210

- (e) The maximum maturity does not exceed five (5) years.

Note: Per state statute, the maximum combination of Mutual Funds and Money Market Mutual Funds is 20% of the portfolio.

It is the intent of the City that the foregoing list of authorized securities and transactions is strictly interpreted. Any deviation from this list must be preapproved by the City Council writing.

### 16. Prohibited Investment Vehicles and Practices

- a. State law notwithstanding, any investments not specifically described herein are prohibited, including, but not limited to futures and options.
- b. In accordance with Government Code, Section 53601.6, investment in inverse floaters, range notes, or mortgage derived interest-only strips is prohibited.
- c. Investment in any security that could result in a zero interest accrual if held to maturity is prohibited. Under a provision sunseting on January 1, 2026, securities backed by the U.S. Government that could result in a zero- or negative-interest accrual if held to maturity are permitted.
- d. Purchasing or selling securities on margin is prohibited.
- e. The purchase of foreign currency denominated securities is prohibited.
- f. Agencies that are not Qualified Institutional Buyers (QIB) as defined by the Securities and Exchange Commission are prohibited from purchasing Private Placement Securities. The SEC defines a QIB as having at least \$100,000,000 in securities owned and invested.

## **VI. PORTFOLIO MATURITIES AND LIQUIDITY**

To the extent possible, investments shall be matched with anticipated cash flow requirements and known future liabilities. The City will not invest in securities maturing more than five years from the date of purchase, unless the City Council has granted authority to make such an investment at least three months prior to the date of investment. The weighted average final maturity of the City's portfolio shall at no time exceed 3 years.

## **VII. MONITORING AND REPORTING**

- A. The Finance Director shall routinely monitor the contents of the portfolio and shall file with the City Council the Finance Manager's Investment Report at the first regularly scheduled City Council meeting after 30 days from the end of the quarter. The reports shall be prepared and submitted in accordance with California Government Code Section 53646 and shall include the following on all invested monies:

- Type of Investment and Issuer
- Beginning Balances
- Purchases During Quarter
- Maturities or Sales During the Quarter
- Ending Balances
- Maturity Date
- Weighted Average Final Maturity

# City of Campbell, California

## *Investment Policy*

Date: August ~~18~~17, 20210

- Call Provisions (if any)
- Interest Rate
- Weighted Average Yield
- Face Value or Purchase Cost
- Market Value including source
- Interest Earned During Quarter
- Interest Earned to Maturity
- Cash Flow Projection for the Following Quarter
- Summary of Cash Invested to Total Cash Balances
- Comparative Statistics by Fiscal Year
- Reconciliation of Cash & Investments to General Ledger Balances
- Investments under the Management of Contracted Parties
- Statement of Compliance with the Investment Policy
- Statement of Ability to Meet Obligations of Next Six Months

B. ~~In addition to the Quarterly Investment Report, monthly transaction reports will be submitted by the Finance Director to City Council within 45 days of the end of the reporting period in accordance with California Government Code Section 53607. Each time an investment transaction is made, an "Investment Transaction Record" form shall be prepared by the Accountant and approved by the Finance Manager. Copies of the form are to be distributed to the City Manager, and Finance Director.~~

## **VIII. SELECTION OF BROKER/DEALERS**

The City shall transact business with securities broker/dealers after careful review of their qualifications and creditworthiness. In selecting broker /dealers, the Finance Director or designated staff member shall select broker/dealers representing primary dealers in government securities that have established offices and order desks within the State of California, or with such firms that have a primary dealer within their holding company structure. Exceptions to this rule will be made only upon the joint written authorization of the Finance Director and City Manager. Staff shall investigate broker/dealers wishing to do business with the City to determine if they are adequately capitalized, are reputable, have pending legal action against the firm or the individual broker, have established offices and order desks within the State of California, and make markets in the securities appropriate to the City's needs.

Before accepting funds or engaging in investment transactions with the City, the supervising officer at each authorized broker/dealer shall submit and annually update a City approved Broker/Dealer Information Request form that includes the firm's most recent audited financial statement. The Finance Director, or his or her designee, shall maintain a list of approved broker/dealers. Broker/dealers shall attest in writing that they have received and reviewed a copy of this Investment Policy, and that they will comply with it and disclose potential conflicts or risks to public funds that might arise out of business transactions between the firm and the City of Campbell.

## **IX. DELIVERY, SAFEKEEPING AND COLLATERALIZATION**

### **A. Delivery:**

1. All investment transactions shall be conducted on a delivery-versus-payment (DVP) basis.

## EXHIBIT A

### GLOSSARY ~~OF ELIGIBLE INVESTMENTS~~

~~**Local Agency Investment Fund (L.A.I.F.)** - The L.A.I.F. was established by the state of California to enable treasurers to place funds in a pool for investments. There currently is a limitation of \$65 million per agency subject to a maximum of 15 total transactions per month. The City of Campbell uses this fund when interest rates are declining as well as for short term investments and liquidity.~~

~~**U.S. Treasury Bills** - Commonly referred to as T-Bills, these are short term marketable securities sold as obligations of the U.S. Government. T-Bills do not accrue interest but are sold at a discount to pay face value at maturity.~~

~~**U.S. Treasury Notes** - These are marketable, interest bearing securities sold as obligations of the U.S. Government with original maturities of one to ten years. Interest is paid semi-annually.~~

~~**U.S. Treasury Bonds** - These are the same as U.S. Treasury Notes except they have original maturities of ten years or longer.~~

~~**U.S. Government Agency Issues** - Are securities that are unconditionally backed by the full faith and credit of the United States, including: Government National Mortgage Association (GNMA), Farmers Home Administration (FmHA), Small Business Administration (SBA), General Services Administration (GSA), Federal Housing Administration (FHA) and Housing and Urban Development (HUD).~~

~~**U.S. Government Instrumentality Issues** - Are government sponsored enterprises that are backed by the creditworthiness of the issuing agency, not the full faith and credit of the U.S. government. They do carry an implied guarantee of government assistance to the organization should it encounter financial difficulties. Issuers include: Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Farm Credit Banks (FFCB) and Federal Home Loan Mortgage Corporation (FHLMC).~~

**Asset Backed Securities** - Securities that are supported by pools of assets, such as installment loans or leases, or by pools of revolving lines of credits. Asset-backed securities are structured as trusts in order to perfect a security interest in the underlying assets.

**Banker's Acceptance** - This is a negotiable time draft (bill of exchange) with a maturity of six months or less drawn on and accepted by a commercial bank. Banker's Acceptances are usually created to finance the import and export of goods, the shipment of goods within the United States and storage of readily marketable commodities. Per State Law, cities may not invest more than 30% of idle cash in Banker's Acceptances.

**Certificate of Deposit (CD's)** - is a receipt for funds deposited in a bank or savings and loan association for a specified period of time at a specified rate of interest. The first \$250,000 of a certificate of deposit is guaranteed by the Federal Deposit Insurance Corporation (FDIC). CD's with a face value in excess of \$250,000 can be collateralized by Treasury Department Securities, which must be at least 110% of the face value of the CD's, in excess of the first \$250,000, or by first mortgage loans which must be at least 150% of the face value of the CD balance in excess of the first \$250,000.

~~**Repurchase Agreements (REPOS)** - is a contractual arrangement between a financial institution, or dealer, and an investor. This agreement normally can run for one or more days. The investor puts up his funds for a certain number of days at a stated yield. In return, he takes a given block of securities as collateral. At maturity, the securities are repurchased and the funds repaid plus~~

### interest.

**Commercial Paper.** - Notes are unsecured promissory notes of industrial corporations, utilities and bank holding companies. State law limits a city to investments in United States corporations having assets in excess of five hundred million dollars with an "A" or higher rating. Per State law, cities may not invest more than 25% of idle cash in commercial paper.

**Delivery Versus Payment (DVP).** - Delivery versus payment (DVP) is a securities industry settlement method that guarantees the transfer of securities only happens after payment has been made. DVP stipulates that the buyer's cash payment for securities must be made prior to or at the same time as the delivery of the security.

**Local Agency Investment Fund (L.A.I.F.).** - The L.A.I.F. was established by the state of California to enable treasurers to place funds in a pool for investments. There currently is a limitation of \$65 million per agency subject to a maximum of 15 total transactions per month. The City of Campbell uses this fund when interest rates are declining as well as for short-term investments and liquidity.

**Medium Term Notes.** - are corporate or depository institution debt securities meeting certain minimum quality standards (as specified in the California Government Code) with a remaining maturity of five years or less.

**Money Market Mutual Fund.** - Mutual funds that invest solely in money market instruments (short-term debt instruments, such as Treasury bills, commercial paper, bankers' acceptances, repos and federal funds).

**Mortgage Backed Securities.** - Mortgage-backed securities (MBS) are created when a mortgagee or a purchaser of residential real estate mortgages creates a pool of mortgages and markets undivided interests or participations in the pool. MBS owners receive a prorata share of the interest and principal cash flows (net of fees) that are "passed through" from the pool of mortgages. MBS are complex securities whose cash flow is determined by the characteristics of the mortgages that are pooled together. Investors in MBS face prepayment risk associated with the option of the underlying mortgagors to pre-pay or payoff their mortgage. Most MBS are issued and/or guaranteed by federal agencies and instrumentalities (e.g., Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA), and Federal Home Loan Mortgage Corporation (FHLMC)).

**Mortgage Pass-Through Obligations.** - Securities that are created when residential mortgages (or other mortgages) are pooled together and undivided interests or participations in the stream of revenues associated with the mortgages are sold.

**Mutual Fund.** - An investment company that pools money and can invest in a variety of securities, including fixed-income securities and money market instruments. Mutual funds are regulated by the Investment Company Act of 1940 and must abide by strict Securities and Exchange Commission (SEC) disclosure guidelines.

**Nationally Recognized Statistical Ratings Organization.** - A nationally recognized statistical ratings organization (NRSRO) is a credit rating agency that provides an assessment of the creditworthiness of a firm or financial instrument(s) that is registered and approved by the Securities and Exchange Commission (SEC). Not all credit rating organizations are NRSROs

**Repurchase Agreements (REPOS).** - is a contractual arrangement between a financial institution, or dealer, and an investor. This agreement normally can run for one or more days. The investor puts up his funds for a certain number of days at a stated yield. In return, he takes a given block of

# City of Campbell, California

## *Investment Policy*

securities as collateral. At maturity, the securities are repurchased and the funds repaid plus interest.

**Supranationals.** - International institutions formed by two or more governments that transcend boundaries to pursue mutually beneficial economic or social goals. There are three supranational institutions that issue obligations that are eligible investments for California local agencies: the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), and InterAmerican Development Bank (IADB).

**U.S. Treasury Bills.** Commonly referred to as T-Bills, these are short-term marketable securities sold as obligations of the U.S. Government. T-Bills do not accrue interest but are sold at a discount to pay face value at maturity.

**U.S. Treasury Notes.** These are marketable, interest-bearing securities sold as obligations of the U.S. Government with original maturities of one to ten years. Interest is paid semi-annually.

**U.S. Treasury Bonds.** These are the same as U.S. Treasury Notes except they have original maturities of ten years or longer.

**U.S. Government Agency Issues.** Are securities that are unconditionally backed by the full faith and credit of the United States, including: Government National Mortgage Association (GNMA), Farmers Home Administration (FmHA), Small Business Administration (SBA), General Services Administration (GSA), Federal Housing Administration (FHA) and Housing and Urban Development (HUD).

**U.S. Government Instrumentality Issues.** Are government sponsored enterprises that are backed by the creditworthiness of the issuing agency, not the full faith and credit of the U.S. government. They do carry an implied guarantee of government assistance to the organization should it encounter financial difficulties. Issuers include: Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Farm Credit Banks (FFCB) and Federal Home Loan Mortgage Corporation (FHLMC).

# City of Campbell, California

## *Investment Policy*

Date: August 17, 2021

### **I. PURPOSE**

It is the policy of the City of Campbell to invest public funds in a prudent manner which conforms to all statutes governing the investment of public funds while providing security and meeting the daily cash flow needs of the City.

The purpose of this document is to identify the policies guiding prudent investment of the City's temporarily idle funds and to establish guidelines and objectives for suitable investments including delegation of authority, prudence, monitoring and reporting, policy review, diversification, eligible securities, safekeeping, collateralization, selection of financial institutions and broker/dealers, glossary of terms, and forms utilized.

### **II. SCOPE**

A. This investment policy shall apply to all financial assets, investment activities, and debt issues of the City of Campbell including the following fund types:

1. General Fund
2. Special Revenue Funds
3. Debt Service Funds
4. Capital Projects Funds
5. Internal Service Funds
6. Trust and Agency Funds

B. The policy does not cover funds held by the Public Employees Retirement System nor funds of the Deferred Compensation program.

### **III. OBJECTIVES**

A. It is the objective of this policy to provide a system which will monitor and forecast revenues and expenditures so that the City can invest temporarily idle funds to the fullest extent possible. The temporarily idle funds shall be invested in accordance with provisions of California Government Code Section 53600 et. seq.

B. The City adheres to conservative investment philosophies including investment of all idle cash, preservation of principal at the risk of yield, maintenance of adequate liquidity to meet anticipated cash flow needs and diversification to avoid the risks inherent in over investing in any one asset class.

C. This policy specifically prohibits trading securities for the sole purpose of speculating on the future direction of interest rates. It further prohibits reverse repurchase agreements, use of derivative products, and/or leveraging of the portfolio.

D. The City shall ensure the safety of invested funds by limiting credit and interest rate risks. The three primary objectives of the City's Investment Policy in order of priority are:

# City of Campbell, California

## **Investment Policy**

**Date: August 17, 2021**

1. **Safety:** Safety of principal is the foremost objective of the City of Campbell. Safety and the minimizing of risk associated with investing refer to attempts to reduce the potential for loss of principal, interest or a combination of the two. The City ensures safety of its invested idle funds and limits credit and interest rate risks by following these guidelines (all of which are detailed within the body of the Investment Policy):
  - a. Investing only in those instruments that are generally accepted as safe investment vehicles for local government as authorized by this Policy,
  - b. Carefully reviewing the qualifications and financial strength of financial institutions and broker/dealers prior to conducting business with them,
  - c. Diversifying the investment portfolio as prescribed within this Policy,
  - d. Structuring the portfolio such that securities mature to meet the City's cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to their maturation,
  - e. Limiting the final maturity of purchased securities to five years; limiting the weighted average maturity of the portfolio to three years, and
  - f. Ensuring the physical security or safekeeping of the City's investments.
2. **Liquidity:** Liquidity is the second most important objective of the City's Policy. Liquidity refers to the ability to convert an investment to cash promptly without loss of principal and minimal loss of interest. For example, this is accomplished by investing either in the Local Agency Investment Fund (LAIF) with same day availability, or investing in securities with active secondary or resale markets.
3. **Yield:** Yield on the City's portfolio is last in rank among investment objectives. Investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

#### **IV. STRUCTURE AND RESPONSIBILITY**

##### **A. DELEGATION OF AUTHORITY:**

1. The City Council assumes direction over the City's investments, and assigns management responsibility for the investment program to the Finance Director, who shall serve as Chief Fiscal Officer, and have legal custody of funds. The Finance Director may provide for delegation of his/her responsibilities to other persons under his/her control responsible for investment transactions, including designation of certain portions of the

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

investment portfolio related to debt financing to be administered by professional portfolio administrators, i.e. California Arbitrage Management Program (C.A.M.P.) or such other designated administrators approved by the Finance Sub-Committee.

### **B. POLICY REVIEW:**

1. This Investment Policy shall be reviewed and approved annually as recommended by California Government Code Section 53600 et. seq.

### **C. RESPONSIBILITIES:**

1. **Responsibilities of the City Council:** The City Council consists of a Mayor and four Council members and is the policy setting board for the City of Campbell. The City Council has considered and adopted a written Investment Policy for the City of Campbell. Pursuant to the City's Financial Policies, the City Council shall on an annual basis, approve necessary changes to the Investment Policy as recommended by the Finance Sub-Committee. On a quarterly basis, the City Council shall receive, review and accept the Quarterly Investment Report submitted by the Finance Department.
2. **Responsibilities of the Finance Sub-Committee:** The Finance Sub-Committee consists of two Council members, the City Manager, the Finance Director, and the Finance Manager. On an annual basis, this Sub-Committee shall review necessary revisions to the established Investment Policy of the City of Campbell and make a recommendation to the City Council accordingly. No less than once per fiscal year, the City's investment strategy will be reviewed by the Finance Sub-Committee. A summary of the investment strategy will be shared with the City Council at that time. Should market activity encourage revisions in the City's strategy, the Finance Sub-Committee shall be advised accordingly.
3. **Responsibilities of the City Manager:** The City Manager is responsible for directing and supervising the Finance Director. He/she has the responsibility of keeping the City Council fully advised as to the financial condition of the City.
  - a. **Wire Transfer Authority:** The City Manager has unlimited wire transfer authority for a single transaction. Such a transaction requires joint review, approval and verification in advance by the City Manager and Finance Director. The transaction shall be highlighted in the Quarterly Investment Report to Council.
4. **Responsibilities of the Finance Director:** The Finance Director is appointed by the City Manager and serves as Chief Fiscal Officer. He/she is subject to the direction and supervision of the City Manager. The Finance Director is charged with the responsibility for the conduct of all Finance Department functions including the custody and investment of City funds, and investment of those funds in accordance with principles of sound treasury management and in accordance with applicable laws and policies. Refer to "Delegation of Authority" for additional information pertaining to delegation of investment responsibilities.

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

- a. Wire Transfer Authority:** The Finance Director has wire transfer authority not to exceed \$5,000,000 for a single transaction. Such a transaction shall be reviewed, approved and verified in advance by the City Manager. The transaction shall be highlighted in the Quarterly Investment Report to Council.
- 5. Responsibilities of the Finance Manager:** The Finance Manager is appointed by the Finance Director and serves as the Investment Manager for the City pursuant to specific delegation authority provided by this Investment Policy. He/she is subject to the direction and supervision of the Finance Director and is charged with the responsibility and conduct of the day-to-day accounting and cash management functions of the City. This includes the custody and investment of City funds, and investment of those funds in accordance with principles of sound treasury management and in accordance with applicable laws and policies. Refer to "Delegation of Authority" for additional information pertaining to delegation of investment responsibilities.

Implementation and maintenance of the Investment Policy are the responsibility of this individual. On an annual basis, the Finance Manager shall present to the Finance Sub-Committee, recommended changes to the City's Investment Policy. On a quarterly basis, the Finance Manager shall present to the City Council, via the City Manager, a Quarterly Investment Report. Refer to "Monitoring and Reporting" for additional information.

- a. Wire Transfer Authority:** The Finance Manager has wire transfer authority not to exceed \$3,000,000 for a single investment transaction. Such a transaction shall be reviewed, approved and verified in advance by the Finance Director, and shall be reported in the Quarterly Investment Report to Council.
- 6. Responsibilities of the Accountant and Sr. Accountant:** The Accountant is appointed by the Finance Director and is subject to the direction and supervision of the Finance Manager. The Accountant carries out the specific instructions provided by the Finance Manager regarding the purchase and sale of securities in accordance with principles of sound treasury management and in accordance with applicable laws and policies. Accounting for the various investment transactions is the responsibility of the Accountant.
  - a. Wire Transfer Authority:** The Accountant and Senior Accountant have wire transfer authority not to exceed \$2,100,000 for a single investment transaction. The standard operating procedure is that all cash and investment wire transfers made by the Accountant and Senior Accountant are reviewed, approved and verified in advance by the Finance Manager, and are reported in the Quarterly Investment Report to Council.

### **D. Prudence:**

1. It is the understanding of the individuals holding positions with investment responsibilities that the "prudent investor" rule applies. This means that investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital and income to be derived.

# City of Campbell, California

## *Investment Policy*

Date: August 17, 2021

2. The City's overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The City recognizes that no investment is totally riskless and that the investment activities of the City are a matter of public record. Accordingly, while the intent of the City is to hold purchased securities to maturity, the City recognizes that occasional measured losses may be advisable in a diversified portfolio and shall be considered within the context of the overall portfolio's return, provided that (a) adequate diversification has been implemented, (b) the sale of a security is in the best long-term interest of the City and (c) the City Manager approves in writing.

### **E. Ethics and Conflicts of Interest:**

Elected officials and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the City's investment program or could impair or create the appearance of an impairment of their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Manager any business interests they have in financial institutions that conduct business with the City, and they shall subordinate their personal investment transactions to those of the City. In addition, the City Manager, the Finance Director and others with delegated investment authority shall file a Statement of Economic Interests each year pursuant to California Government Code Section 87203 and regulations of the Fair Political Practices Commission.

### **F. Conflict with State Statutes or Regulations**

1. Any conflict between the City of Campbell Investment Policy and Government Code Section 53600 et seq, shall be interpreted in favor of the Government Code.

## **V. AUTHORIZED SECURITIES AND TRANSACTIONS**

All investments and deposits of the City shall be made in accordance with California Government Code Sections 16429.1, 53600-53609 and 53630-53686, except that pursuant to California Government Code Section 5903(e), proceeds of bonds and any moneys set aside or pledged to secure payment of the bonds may be invested in securities or obligations described in the ordinance, resolution, indenture, agreement, or other instrument providing for the issuance of the bonds. Any revisions or extensions of these code sections will be assumed to be part of this Policy immediately upon being enacted. However, in the event that amendments to these sections conflict with this Policy and past City investment practices, the City may delay adherence to the new requirements when it is deemed in the best interest of the City to do so. Percentage holdings limits listed in this section apply at the time the security is purchased.

The City has further restricted the eligible types of securities and transactions to the following:

1. United States Treasury bills, notes, bonds, or strips with a final maturity not exceeding five years from the date of purchase.
2. Federal Agency debentures and mortgage-backed securities with a final maturity not exceeding five years from the date of purchase issued by the Government National

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

Mortgage Association (GNMA). The aggregate investment in Federal Agency obligations shall not exceed 75% of the City's total portfolio.

3. Federal Instrumentality (government sponsored enterprise) debentures, discount notes, callable and step-up securities, with a final maturity not exceeding five years from the date of purchase, issued by the following only: Federal Home Loan Banks (FHLB), Federal National Mortgage Association (FNMA), Federal Farm Credit Banks (FFCB) and Federal Home Loan Mortgage Corporation (FHLMC). The aggregate investment in Federal Instrumentality obligations shall not exceed 75% of the City's total portfolio.
4. Repurchase Agreements with a final termination date not exceeding one year collateralized by U.S. Treasury obligations, Federal Agency securities, or Federal Instrumentality securities listed in items 1, 2 and 3 above with the maturity of the collateral not exceeding five years. For the purpose of this section, the term collateral shall mean purchased securities under the terms of the City's approved Master Repurchase Agreement. The purchased securities shall have a minimum market value including accrued interest of 102% of the dollar value of the transaction. Collateral shall be held in the City's custodian bank, as safekeeping agent, and the market value of the collateral securities shall be marked-to-the-market daily. The aggregate investment in repurchase agreements shall not exceed 10% of the City's total portfolio.

Repurchase Agreements shall be entered into only with broker/dealers that have executed a City approved Master Repurchase Agreement with the City. Repurchase counterparties shall be recognized as Primary Dealers with the Federal Reserve Bank of New York, or shall have a primary dealer within their holding company structure. Broker/dealers approved as Repurchase Agreement counterparties shall have a short-term credit rating of at least A-1 or the equivalent and a long-term credit rating of at least A or the equivalent. The Finance Director shall maintain a copy of the City's approved Master Repurchase Agreement along with a list of the broker/dealers that have executed a Master Repurchase Agreement with the City.

5. Prime Commercial Paper with a maturity not exceeding 270 days from the date of purchase with the highest ranking or of the highest letter and number rating as provided for by a Nationally Recognized Statistical Ratings Organization (NRSRO). The entity that issues the commercial paper shall meet all of the following conditions in either sub-paragraph a. or sub-paragraph b. below:
  - a. The entity shall (1) be organized and operating in the United States as a general corporation, (2) have total assets in excess of five hundred million dollars (\$500,000,000) and (3) have debt other than commercial paper, if any, that is rated "A" or higher by a NRSRO.
  - b. The entity shall (1) be organized within the United States as a special purpose corporation, trust, or limited liability company, (2) have program wide credit enhancements, including, but not limited to, over collateralization, letters of credit or surety bond and (3) have commercial paper that is rated "A-1" or higher, or the equivalent, by a NRSRO.

Purchases of eligible commercial paper may not represent more than 10% of the outstanding commercial paper of any single corporate issuer. No more than 5% of the City's total portfolio may be invested in the commercial paper of any one issuer, and the

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

aggregate investment in commercial paper shall not exceed 25% of the City's total portfolio.

6. Eligible Bankers Acceptances rated at least A-1 by Standard & Poor's, P-1 by Moody's, or F1 by Fitch at the time of purchase by each service that rates the commercial paper, with a maturity not exceeding 180 days from the date of purchase, issued by a state or national bank that has combined capital and surplus of at least \$250 million, whose deposits are insured by the FDIC, and whose senior long-term debt is rated at least A by Standard & Poor's, A2 by Moody's or A by Fitch at the time of purchase. No more than 5% of the City's total portfolio may be invested in banker's acceptances of any one issuer, and the aggregate investment in banker's acceptances shall not exceed 30% of the City's total portfolio.
7. Medium Term Notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States, with a final maturity not exceeding five years from the date of purchase, and are rated in a rating category of "A" or its equivalent or better by at least one NRSRO. No more than 5% of the City's total portfolio may be invested in medium term notes of any one issuer and the aggregate investment in medium term notes shall not exceed 30% of the City's total portfolio.
8. Non-negotiable Time Certificates of Deposit and savings deposits with a maturity not exceeding five years, in state or nationally chartered banks or savings and loans with a California branch office that are insured by the FDIC. Time Certificates of Deposit exceeding the FDIC insured amount must be secured pursuant to California Government Code Section 53652. No more than \$1 million may be invested in non-negotiable time certificates of deposit of any one issuer and the aggregate amount invested in non-negotiable time certificates of deposit shall not exceed 25% of the City's total portfolio.
9. Certificates of Deposit at commercial bank, savings bank, or savings and loan association that uses a private sector entity (Certificate of Deposit Account Registry Service) that assists in the placement of certificates of deposit, provided that the purchase of certificates of deposit do not, in total, exceed 30% of the City's funds that may be invested for this purpose. The City shall choose a nationally or state chartered commercial bank in California as the "selected" depository institution to invest the funds. The selected depository institution may submit the funds to a CDARS for the benefit of the City's account. The full amount of the principal and interest that may be accrued during the maximum term of each certificate shall be insured by the FDIC.
10. State of California's Local Agency Investment Fund (LAIF), pursuant to California Government Code Section 16429.1.
11. Mutual Funds registered under the Investment Company Act of 1940 that (1) are "no-load" (meaning no commission or fee shall be charged on purchases or sales of shares); (2) invest only in the securities and obligations authorized in this policy and (3) have a rating of AAA by Standard and Poor's, Aaa by Moody's or AAA/V1+ by Fitch. No more than 10% of the City's total portfolio may be invested in mutual funds of any one issuer, and the aggregate investment in mutual funds shall not exceed 15% of the City's total portfolio.

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

12. Money Market Mutual Funds registered under the Investment Company Act of 1940 that (1) are “no-load” (meaning no commission or fee shall be charged on purchases or sales of shares); (2) have a constant daily net asset value per share of \$1.00; (3) invest only in the securities and obligations authorized in this policy and (4) have a rating of at least two of the following: AAA by Standard and Poor’s, Aaa by Moody’s or AAA/V1+ by Fitch. No more than 10% of the City’s total portfolio may be invested in money market funds of any one issuer, and the aggregate investment in money market funds shall not exceed 15% of the total portfolio.
13. Municipal and State Obligations with a minimum long-term rating of A/A-1 or higher by Standard and Poor’s and not exceeding 10% of the portfolio:
  - (a) Bonds Issued by the Local Agency (City of Campbell) including bonds payable solely out of the revenue from a revenue-producing property owned, controlled, or operated by the local agency or by a department, board, agency, or authority of the local agency.)
  - (b) State Obligations including registered treasury notes or bonds of this State and any of the other 49 states in addition to California, including bonds payable solely out of the revenue from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of the any of the other 49 United States, in addition to California.
  - (c) California Local Agency obligations including bonds, notes, warrants, or other evidence of indebtedness of any local agency within this state, including bonds payable solely out of the revenue from a revenue-producing property owned, controlled, or operated by the local agency or by a department, board, agency, or authority of the any of the local agency.
  - (d) No more than 5% of the portfolio may be invested in any single issuer.
14. Asset-Backed, Mortgage-Backed, Mortgage Pass-Through Securities, and Collateralized Mortgage Obligations from Issuers Not Defined in Sections 1, 2, and 4 of the Authorized Investments Section of This Policy, provided that:
  - (a) The securities are rated in a rating category of “AA” or its equivalent or better by a NRSRO.
  - (b) No more than 20% of the total portfolio may be invested in these securities.
  - (c) No more than 5% of the portfolio may be invested in any single Asset-Backed or Commercial Mortgage security issuer.
  - (d) The maximum legal final maturity does not exceed five (5) years.
15. Supranationals, provided that:
  - (a) Issues are US dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank.
  - (b) The securities are rated in a rating category of “AA” or its equivalent or better by a NRSRO.
  - (c) No more than 30% of the total portfolio may be invested in these securities.
  - (d) No more than 10% of the portfolio may be invested in any single issuer.

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

- (e) The maximum maturity does not exceed five (5) years.

Note: Per state statute, the maximum combination of Mutual Funds and Money Market Mutual Funds is 20% of the portfolio.

It is the intent of the City that the foregoing list of authorized securities and transactions is strictly interpreted. Any deviation from this list must be preapproved by the City Council writing.

### 16. Prohibited Investment Vehicles and Practices

- a. State law notwithstanding, any investments not specifically described herein are prohibited, including, but not limited to futures and options.
- b. In accordance with Government Code, Section 53601.6, investment in inverse floaters, range notes, or mortgage derived interest-only strips is prohibited.
- c. Investment in any security that could result in a zero interest accrual if held to maturity is prohibited. Under a provision sunseting on January 1, 2026, securities backed by the U.S. Government that could result in a zero- or negative-interest accrual if held to maturity are permitted.
- d. Purchasing or selling securities on margin is prohibited.
- e. The purchase of foreign currency denominated securities is prohibited.
- f. Agencies that are not Qualified Institutional Buyers (QIB) as defined by the Securities and Exchange Commission are prohibited from purchasing Private Placement Securities. The SEC defines a QIB as having at least \$100,000,000 in securities owned and invested.

## **VI. PORTFOLIO MATURITIES AND LIQUIDITY**

To the extent possible, investments shall be matched with anticipated cash flow requirements and known future liabilities. The City will not invest in securities maturing more than five years from the date of purchase, unless the City Council has granted authority to make such an investment at least three months prior to the date of investment. The weighted average final maturity of the City's portfolio shall at no time exceed 3 years.

## **VII. MONITORING AND REPORTING**

- A. The Finance Director shall routinely monitor the contents of the portfolio and shall file with the City Council the Finance Manager's Investment Report at the first regularly scheduled City Council meeting after 30 days from the end of the quarter. The reports shall be prepared and submitted in accordance with California Government Code Section 53646 and shall include the following on all invested monies:

- Type of Investment and Issuer
- Beginning Balances
- Purchases During Quarter
- Maturities or Sales During the Quarter
- Ending Balances
- Maturity Date
- Weighted Average Final Maturity
- Call Provisions (if any)

# City of Campbell, California

## ***Investment Policy***

**Date: August 17, 2021**

- Interest Rate
- Weighted Average Yield
- Face Value or Purchase Cost
- Market Value including source
- Interest Earned During Quarter
- Interest Earned to Maturity
- Cash Flow Projection for the Following Quarter
- Summary of Cash Invested to Total Cash Balances
- Comparative Statistics by Fiscal Year
- Reconciliation of Cash & Investments to General Ledger Balances
- Investments under the Management of Contracted Parties
- Statement of Compliance with the Investment Policy
- Statement of Ability to Meet Obligations of Next Six Months

B. In addition to the Quarterly Investment Report, monthly transaction reports will be submitted by the Finance Director to City Council within 45 days of the end of the reporting period in accordance with California Government Code Section 53607.

## **VIII. SELECTION OF BROKER/DEALERS**

The City shall transact business with securities broker/dealers after careful review of their qualifications and creditworthiness. In selecting broker /dealers, the Finance Director or designated staff member shall select broker/dealers representing primary dealers in government securities that have established offices and order desks within the State of California, or with such firms that have a primary dealer within their holding company structure. Exceptions to this rule will be made only upon the joint written authorization of the Finance Director and City Manager. Staff shall investigate broker/dealers wishing to do business with the City to determine if they are adequately capitalized, are reputable, have pending legal action against the firm or the individual broker, have established offices and order desks within the State of California, and make markets in the securities appropriate to the City's needs.

Before accepting funds or engaging in investment transactions with the City, the supervising officer at each authorized broker/dealer shall submit and annually update a City approved Broker/Dealer Information Request form that includes the firm's most recent audited financial statement. The Finance Director, or his or her designee, shall maintain a list of approved broker/dealers. Broker/dealers shall attest in writing that they have received and reviewed a copy of this Investment Policy, and that they will comply with it and disclose potential conflicts or risks to public funds that might arise out of business transactions between the firm and the City of Campbell.

## **IX. DELIVERY, SAFEKEEPING AND COLLATERALIZATION**

### **A. Delivery:**

1. All investment transactions shall be conducted on a delivery-versus-payment (DVP) basis.

### **B. Safekeeping:**

1. The City shall contract with a bank or banks for the safekeeping of securities which are owned by the City as a part of the investment portfolio. Staff shall

# City of Campbell, California

## Investment Policy

Date: August 17, 2021

periodically review the performance and pricing of the third-party, safekeeping agent services.

2. All investment securities (except the collateral for certificates of deposit in banks, and/or savings and loans) purchased by the City shall be held in third-party safekeeping by an institution designated as primary agent. The primary agent shall issue a safekeeping receipt to the City listing the specific instrument, rate, maturity and other pertinent information, and shall provide monthly reports of activity and ending balances for all securities held on behalf of the City.

### C. Collateralization:

1. Deposit-type securities (i.e. certificates of deposit) shall be collateralized through the State of California collateral pool requirements for any amount exceeding FDIC coverage in accordance with California Government Code Section 53652 and/or 53651(m) (1). Collateral for certificates of deposit shall be held in a trust company located in California, the trust department of a bank located in California or the Federal Home Loan Bank of San Francisco.
2. Other securities shall be collateralized by the actual security held in third-party safekeeping by the primary agent.

## X. DIVERSIFICATION AND ELIGIBLE SECURITIES

The City will diversify investment instruments to avoid incurring unreasonable risks in overinvesting in specific instruments, individual financial institutions or maturities. The following portfolio maximums shall apply:

If the credit ratings of any security owned by the City are downgraded to a level below the quality required by this investment policy, it will be the City's policy to review the credit situation and make a determination as to whether to sell or retain such securities in the portfolio.

If a security is downgraded, the Finance Director will use discretion in determining whether to sell or hold the security based on its current maturity, the economic outlook for the issuer, and other relevant factors.

If a decision is made to retain a downgraded security in the portfolio, its presence in the portfolio will be monitored and reported quarterly to the City Council.

## EXHIBIT A

### GLOSSARY

**Asset Backed Securities.** - Securities that are supported by pools of assets, such as installment loans or leases, or by pools of revolving lines of credits. Asset-backed securities are structured as trusts in order to perfect a security interest in the underlying assets.

**Banker's Acceptance.** This is a negotiable time draft (bill of exchange) with a maturity of six months or less drawn on and accepted by a commercial bank. Banker's Acceptances are usually created to finance the import and export of goods, the shipment of goods within the United States and storage of readily marketable commodities. Per State Law, cities may not invest more than 30% of idle cash in Banker's Acceptances.

**Certificate of Deposit (CD's).** - is a receipt for funds deposited in a bank or savings and loan association for a specified period of time at a specified rate of interest. The first \$250,000 of a certificate of deposit is guaranteed by the Federal Deposit Insurance Corporation (FDIC). CD's with a face value in excess of \$250,000 can be collateralized by Treasury Department Securities, which must be at least 110% of the face value of the CD's, in excess of the first \$250,000, or by first mortgage loans which must be at least 150% of the face value of the CD balance in excess of the first \$250,000.

**Commercial Paper.** - Notes are unsecured promissory notes of industrial corporations, utilities and bank holding companies. State law limits a city to investments in United States corporations having assets in excess of five hundred million dollars with an "A" or higher rating. Per State law, cities may not invest more than 25% of idle cash in commercial paper.

**Delivery Versus Payment (DVP).** - Delivery versus payment (DVP) is a securities industry settlement method that guarantees the transfer of securities only happens after payment has been made. DVP stipulates that the buyer's cash payment for securities must be made prior to or at the same time as the delivery of the security.

**Local Agency Investment Fund (L.A.I.F.).** - The L.A.I.F. was established by the state of California to enable treasurers to place funds in a pool for investments. There currently is a limitation of \$65 million per agency subject to a maximum of 15 total transactions per month. The City of Campbell uses this fund when interest rates are declining as well as for short-term investments and liquidity.

**Medium Term Notes.** - are corporate or depository institution debt securities meeting certain minimum quality standards (as specified in the California Government Code) with a remaining maturity of five years or less.

**Money Market Mutual Fund.** - Mutual funds that invest solely in money market instruments (short-term debt instruments, such as Treasury bills, commercial paper, bankers' acceptances, repos and federal funds).

**Mortgage Backed Securities.** - Mortgage-backed securities (MBS) are created when a mortgagee or a purchaser of residential real estate mortgages creates a pool of mortgages and markets undivided interests or participations in the pool. MBS owners receive a prorata share of the interest and principal cash flows (net of fees) that are "passed through" from the pool of mortgages. MBS are complex securities whose cash flow is determined by the characteristics of the mortgages that are pooled together. Investors in MBS face prepayment risk associated with the option of the underlying mortgagors to pre-pay or payoff their mortgage. Most MBS are issued and/or guaranteed by federal

# City of Campbell, California

## *Investment Policy*

**Date: August 17, 2021**

agencies and instrumentalities (e.g., Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA), and Federal Home Loan Mortgage Corporation (FHLMC)).

**Mortgage Pass-Through Obligations.** - Securities that are created when residential mortgages (or other mortgages) are pooled together and undivided interests or participations in the stream of revenues associated with the mortgages are sold.

**Mutual Fund.** - An investment company that pools money and can invest in a variety of securities, including fixed-income securities and money market instruments. Mutual funds are regulated by the Investment Company Act of 1940 and must abide by strict Securities and Exchange Commission (SEC) disclosure guidelines.

**Nationally Recognized Statistical Ratings Organization.** - A nationally recognized statistical ratings organization (NRSRO) is a credit rating agency that provides an assessment of the creditworthiness of a firm or financial instrument(s) that is registered and approved by the Securities and Exchange Commission (SEC). Not all credit rating organizations are NRSROs

**Repurchase Agreements (REPOS).** - is a contractual arrangement between a financial institution, or dealer, and an investor. This agreement normally can run for one or more days. The investor puts up his funds for a certain number of days at a stated yield. In return, he takes a given block of securities as collateral. At maturity, the securities are repurchased and the funds repaid plus interest.

**Supranationals.** - International institutions formed by two or more governments that transcend boundaries to pursue mutually beneficial economic or social goals. There are three supranational institutions that issue obligations that are eligible investments for California local agencies: the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), and InterAmerican Development Bank (IADB).

**U.S. Treasury Bills.** Commonly referred to as T-Bills, these are short-term marketable securities sold as obligations of the U.S. Government. T-Bills do not accrue interest but are sold at a discount to pay face value at maturity.

**U.S. Treasury Notes.** These are marketable, interest-bearing securities sold as obligations of the U.S. Government with original maturities of one to ten years. Interest is paid semi-annually.

**U.S. Treasury Bonds.** These are the same as U.S. Treasury Notes except they have original maturities of ten years or longer.

**U.S. Government Agency Issues.** Are securities that are unconditionally backed by the full faith and credit of the United States, including: Government National Mortgage Association (GNMA), Farmers Home Administration (FmHA), Small Business Administration (SBA), General Services Administration (GSA), Federal Housing Administration (FHA) and Housing and Urban Development (HUD).

**U.S. Government Instrumentality Issues.** Are government sponsored enterprises that are backed by the creditworthiness of the issuing agency, not the full faith and credit of the U.S. government. They do carry an implied guarantee of government assistance to the organization should it encounter financial difficulties. Issuers include: Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Farm Credit Banks (FFCB) and Federal Home Loan Mortgage Corporation (FHLMC).

# MEMORANDUM

# CITY OF CAMPBELL

Finance Department

**To:** Finance Sub-Committee

**From:** Will Fuentes, Finance Director  
Norite Vong, Finance Manager

**Subject:** **Investment Strategy for FY 2021-22**

**Date:** July 26, 2021

---

---

## BACKGROUND

The investment policy establishes procedures and guidelines by which the City's surplus funds can be managed in a prudent and fiscally sound manner. The policy encompasses those funds over which the City exercises fiscal control and prioritizes the objectives of public funds management as safety, liquidity and yield, in that order and consistent with guidance provided by the Government Finance Officers Association (GFOA). It also stipulates allowable and unallowable investment alternatives as well as establishes parameters for selecting broker/dealers and institutions with which the City may do business.

California Government Code Section 53646 (a) (2) recommends that on an annual basis, the City Investment Policy be submitted to its legislative body and any oversight committee for consideration at a public meeting. The Finance Sub-Committee is the oversight committee responsible for review of the Investment Policy. In addition to review of any proposed revisions to the Investment Policy, staff has prepared a report summarizing the past year's economic conditions and the recommended strategy for managing the City's available invested funds.

## SUMMARY OF CURRENT STRATEGY AND RECOMMENDATIONS

It is recommended that the City continue to maintain sufficient liquidity to cover daily operating cash flows for a minimum of 3 months to provide a reasonable cushion for fluctuations in the portfolio balance and for unforeseen emergencies. Average monthly disbursements over the last fiscal year (FY 2020-21) were approximately \$7.0 million. Therefore, staff recommends retaining a target of \$21.0 million (3 months) in the Local Agency Investment Fund (LAIF). Last fiscal year, due to the added economic uncertainty surrounding COVID-19, staff exceeded the 3 month liquidity target whenever possible and did not re-invest called securities long-term. Rather, staff shifted called securities into the highly liquid LAIF. Staff has taken this approach with called securities since March 2020. However, with the pandemic being brought under better control and the current LAIF investment rate being quite low at 0.33%, staff recommends again re-investing called securities into longer-term investment opportunities outside of LAIF; thereby providing a higher, yet still safe return consistent with the City's Investment Policy.

And similar to prior years, staff will once again look for longer term fixed income investment opportunities that make sense for Campbell and have individual maturities of no more than 5 years, while maintaining a portfolio weighted average maturity of 3 years or less. As such, staff does not recommend increasing the formal liquidity target past 3 months. This will provide staff with needed flexibility should longer term fixed income opportunities arise which are beneficial to Campbell. Although fixed income interest rates for longer-term investment classes such as government securities and corporate notes are currently low, they are largely outperforming LAIF. Please note that as of June 30, 2021, the City had **\$52.9 million** invested in LAIF, with an annual return of **0.262%**. This compares with \$37.8 million invested in LAIF as of June 30, 2020 and an annual return of 1.410% at that time. LAIF holdings increased significantly during the last fiscal year mainly due to the first issuance of \$23.1 million in Measure O Bonds and re-investment of called securities into LAIF to enhance the City's liquidity position.

Interest rates for fixed income investments have remained relatively low this past year as the Federal Open Market Committee (FOMC) has taken a strategy of keeping the Federal Funds Rate low to stimulate the economy and consumer and business borrowing in response to the pandemic. The current Federal Funds Rate is 0.25 percent with a target of 0.00 to 0.25 percent. The FOMC kept monetary policy unchanged in June. Nevertheless, FOMC members' updated economic projections suggest that the Fed may start to raise interest rates in 2023. Overall, monetary policy remains highly accommodative for now, but the Fed seems to be inching toward a path of policy normalization. Staff believes the Fed will proceed with caution, particularly given the high number of people who remain unemployed and continued uncertainty about the pandemic. This will likely result in returns that will continue to be less than 1% for the City's fixed income investments over this fiscal year, but staff will continue to work diligently with the City's broker dealers to find appropriate investment opportunities for Campbell that exceed 1% return.

### INVESTMENT OBJECTIVES AND OVERVIEW

The City's policy is to invest public funds in a prudent manner, provide for maximum security while meeting daily cash flow needs and comply with applicable statutes. Chief among the objectives outlined in the policy are safety, liquidity and yield, in that specific order and again consistent with GFOA guidance. Within this framework, a number of investment choices are provided to allow flexibility in meeting these objectives. The City continues to take a conservative approach with its investments and that is reflected in the current recommended investment policy. Last fiscal year, staff placed a greater emphasis on liquidity to hedge against the economic uncertainty surrounding COVID-19. However, this fiscal year, with the pandemic again being brought under better control, staff recommends returning to the normal priority of safety, liquidity, and yield, in that order.

As a means to implement the policy, it is important to develop a strategy for achieving the stated objectives. Likewise, the strategy should be reviewed periodically to determine whether it needs to be modified in light of changing economic and financial conditions. This document will serve as the City's investment strategy for the next year and will be reviewed annually in conjunction with the review of the City's investment policy or sooner if conditions warrant.

## ECONOMIC UPDATE AND OUTLOOK

Due to the gradual re-opening of the US economy, Real Gross Domestic Product (GDP) increased at an annual rate of 6.4% in the first quarter of 2021. The Conference Board, a respected economic think tank since 1916, forecasts that US Real GDP growth will rise to 9.0% (annualized rate) in the second quarter of 2021 and 6.6% (year-over-year) in 2021. Following solid economic growth in the first quarter of 2021, the Conference Board expects the recovery to continue through the remainder the year. Looking further ahead, the Conference Board forecasts economic growth of 3.8% (year-over-year) in 2022 and 2.5 % (year-over-year) in 2023. Similarly, UCLA Anderson, another respected economic think tank, forecasts average annual real GDP growth of 7.1% in 2021, 5.0% in 2022, and 2.2% in 2023. UCLA Anderson also forecasts that the US will surpass the pre-pandemic peak of real GDP in the second quarter of 2021 and surpass the pre-pandemic GDP trendline by the fourth quarter of 2021.

While the increase in US GDP is welcome news, the Consumer Price Index (CPI) was also up 5.4% year-over-year in June versus up 5.0% in May. Core CPI (CPI less food and energy) was up 4.5% year-over-year in June, versus up 3.8% in May. Inflation is currently running well above the Federal Reserve's longer-run target of around 2.0%. However, Federal Reserve Chair Powell reiterated last week that policymakers believe that most of the factors fueling near-term inflationary pressures will be temporary. While staff expects supply chain bottlenecks will continue to put upward pressure on prices over the near- to intermediate-term, base effects from the pandemic will likely start to phase out in the coming months. As such, staff believes we may be at or near the peak of year-over-year inflation rates. The FOMC will hold its next policy meeting on July 27-28 and staff expects that inflation will be a central talking point. However, staff continues to believe the Federal Reserve will proceed with caution in terms of monetary policy changes, particularly given the high number of people who remain unemployed and continued uncertainty about the pandemic and impact of COVID-19 variants.

On a year-over-year basis, US retail sales were up 18.0% in June versus up 27.6% in May. Year-over-year gains were fueled in part by the drop-off in spending and activity during the pandemic last year. On a month-over-month basis, retail sales increased 0.6% in June (exceeding expectations), following a 1.7% decline in May. Retail sales have been somewhat uneven on a monthly basis due to the timing of fiscal stimulus and economic re-opening. Notably, while some states have already stopped providing the \$300 per month extended pandemic-related unemployment benefit, millions of American households began receiving monthly child tax credit payments this month. Eligible households will receive up to \$300 a month for each child under age 6 and up to \$250 for each child ages 6 to 17, through year-end. Overall, staff believes ongoing fiscal support, an improving labor market, and further progress on vaccinations should continue to support consumer spending. However, there has recently been a meaningful increase in COVID-19 cases related to variants, particularly in areas with lower vaccination rates, which bears watching. While staff does not anticipate renewed widespread US lockdowns, a significant resurgence of the virus could at least temporarily disrupt expectations for a full economic reopening this fall. It may also help catalyze demand for vaccines, as US vaccination rates have recently stalled.

US job growth was stronger than expected in June. US nonfarm payrolls increased by 850,000, versus the Bloomberg consensus forecast of 720,000. May payrolls were also revised up by 24,000 to 583,000. On a trailing 3-month and 6-month basis, payrolls increased by an average of 567,000 and 543,000 per month, respectively, which is indicative of a steady recovery in the labor market. The leisure and hospitality sector continues to drive the job gains in June and increased by 343,000. Government payrolls also posted a solid increase of 188,000 in June. The labor participation rate was unchanged at 61.6% in June and is 1.7% lower than the pre-pandemic level. The employment-population ratio was also unchanged in the month at 58.0% and is 3.1% below the pre-pandemic level. The unemployment rate ticked higher to 5.9% in June from 5.8% in May and remains well above the pre-pandemic low of 3.5% in February 2020. The U-6 underemployment rate, which includes those who are marginally attached to the labor force and employed part time for economic reasons, declined to 9.8% in June from 10.2% in May (versus 7.0% in February 2020). The index of aggregate private weekly payrolls was up 2.8% in June from February 2020, suggesting a solid increase in aggregate wages. Still, nearly 9.5 million people remained unemployed in June (up from 9.3 million in May) and 42% of those had been unemployed for more than 27 weeks.

Overall, staff believes that June's employment report confirms that the labor market continues to recover but remains a long way from a full recovery. Staff believes supply chain constraints continue to weigh on the labor market, as indicated by the ongoing decline in construction payrolls and decline in motor vehicle and parts payrolls in June. Nevertheless, staff believes these pressures should abate in the coming quarters and believes the labor market is generally poised for an accelerated pace of recovery in the second half of the calendar year. Staff believes several factors are likely to lure workers back into the labor pool over the coming months including wage growth, continued increases in vaccination rates, the end of expanded unemployment benefits, and the reopening of schools this fall.

In California, total nonfarm employment in the state increased by 73,500 jobs over the month of June 2021; following a decrease of 32,700 jobs in May 2021. Additionally, statewide unemployment stayed steady at a rate of 7.7% in June 2021; unchanged from May 2021 and down from 14.1% in June 2020. In Santa Clara County, the rate increased to 5.1% in June 2021; up from 4.7% in May 2021, and down from 10.3% in June 2020. And in Campbell, the rate increased to 4.8% in June 2021; up from 4.5% in May 2021 and down from 9.4% in June 2020.

Other economic data was also strong in recent weeks, including robust readings on home prices and a solid increase in consumer confidence. Overall, staff believes the outlook for economic growth in the second half of the calendar year remains strong. However, staff continues to believe the Federal Reserve is likely to remain on the sidelines in the near-term. Staff again believes the Federal Reserve will proceed with caution, in terms of policy changes, particularly given the high number of people who remain unemployed and continued uncertainty about the pandemic and impact of COVID-19 variants. While nearly 55% of people in the US have received at least one dose of a COVID-19 vaccine (according to the Centers for Disease Control and Prevention), only 23.7% of the world population has received at least one dose (according to Our World in Data) as of early July 2021.

## PORTFOLIO BALANCE

For the fiscal year ended June 30, 2021, the City's average portfolio balance was approximately **\$50.8 million** and the average yield for the fiscal year was **0.62%**. This compares to an average portfolio balance of \$37.7 million and an average yield of 1.97% for fiscal year ended June 30, 2020. Such decreases in yield are due to a continued decline in fixed income investment rates.

As of June 30, 2021, the City's investment portfolio was valued at approximately **\$56.9 million**. This was comprised of approximately \$52.9 million (92.97%) in LAIF, \$2.0 million (3.51%) in US Government Agency securities, and \$2.0 million (3.51%) in corporate notes or money market accounts. Almost all these funds are considered "discretionary" investments meaning that the City can invest this amount as it sees fit within the guidelines of the investment policy. With a minimum holdback of at least \$21.0 million for cash flow, that leaves up to \$35.9 million that can be invested in Agency and other securities (limitation of 75% of portfolio per investment policy). \$4.0 million is currently invested outside of LAIF and staff will again seek to increase this throughout the fiscal year as economic conditions improve.

## DISCUSSION OF ALLOWABLE INVESTMENTS

The City's investment policy contains a listing of allowable investment instruments along with specified limits and maturities. These include:

- State of California Local Agency Investment Fund (LAIF)
- US Treasury Bills, Notes & Bonds
- US Government Agency Issues (e.g., FNMA & GNMA)
- Corporate Medium-Term Notes
- Banker's Acceptances
- Certificates of Deposit with banks or savings & loan associations
- Repurchase Agreements
- Commercial Paper
- Mutual Funds (allowed by Calif. Gov't Code Sec. 53601(a)-(m))

It is the City's experience that LAIF provides a safe short-term investment vehicle, and the City has utilized it for its primary source of investment earnings for many years. This fund is generally viewed as a conservative and safe investment choice. In fact, the City is not aware of any municipality that has ever experienced a loss of principal in LAIF. One characteristic of LAIF is that, due to its size (combined State Investment Pool assets valued at approximately \$193.3 billion as of June 30, 2021) the rate of return will typically lag the current market. Thus, in periods of rising interest rates, LAIF may have a lower return. Conversely, in a declining market, LAIF will provide investors with an above-market return. The yield as of June 2021 was approximately 0.33% compared to 1.47% one year ago. LAIF yield is expected to drop to a range of 0.20% to 0.23% by the end of calendar year 2021 due to the overall state of short-term investment rates, but a key benefit of using LAIF is that it again offers a high degree of liquidity whereby funds can generally be requested and

received in the same day. Another benefit is that a minimum of staff administrative effort is required, enabling the time to be spent on other departmental priorities.

US Treasuries are considered to be one of the safest investment choices available to municipalities due to their being backed by the full faith and credit of the United States Government. However, because of their popularity and under current market conditions, the rate of return tends to be lower than other types of securities. As of July 22, 2021, the 6-month and 2-year term Treasuries are yielding 0.05% and 0.20%, respectively. The 5-year Treasury has a yield of 0.70%. These rates have increased slightly from a year ago, but still remain very low due to actions by the Federal Reserve to lower the Federal Funds Rate. For reference, please see the treasury yield curve as of July 22, 2021 below. As illustrated, the fixed income market is currently very low with a slight upward slope.

US Agency issues also provide a safe and acceptable rate of return and are still considered a safe investment choice (AAA rated). Agencies can be “callable” meaning they can be redeemed by the issuer prior to maturity or “non-callable (bullet)” meaning they cannot be redeemed prior to maturity. Agencies also issue “discount notes” which have shorter term issues, generally less than 18 months, in which the note is bought at a deep discount and redeemed for face value at maturity. The City has historically purchased primarily callable structured rate agencies to maximize its yields and minimize interest rate risk in the future.

With respect to the upcoming year, it is anticipated that investments outside of LAIF will continue to be made primarily in callable agency securities with some rate protection and an average term of two to four years. Staff will also evaluate other types of investments allowed by policy that may have yields in excess of LAIF and agency issues, such as short-term commercial paper, corporate notes rated AA or higher, and non-callable agency issues, or other investments that lock in an acceptable rate of return for a longer period of time than LAIF.

**RECOMMENDATION**

It is recommended that the Finance sub-Committee approve the proposed strategy.
